### What are Knockouts

Knockouts are bracketed based on the average masterpoint holdings of all team members. To receive an overall award, a player must play at least half of the boards his team plays, including half of the boards played in the (combined) semifinal and final matches. He receives only the award earned in the last match of which he has played at least half that his team won. (Example: a player plays in the first match, sits out the second which the team wins (earning 3/4 overall), and then plays again in the third match, which the team loses. This player has earned only the match award from the first match. The rest of the team receives the points for 3/4 overall.) Compact KO teams must be composed of exactly four players. Any Knockout event which is advertised as bracketed but only draws enough teams for one bracket shall be run as a Handicapped event.
